

QUARTZITE

Cristallo

Type	Quartzite
Finish	Polished
Color family	White
Origin	Brazil
Sealing	Confirm requirements for the selected stone

Cristallo is a Brazilian quartzite sold in the US by MSI, sourced from Brazil and known for a cool white backdrop with delicate gray veining and warm orange flecking. It is a true quartzite, formed when quartz-rich sandstone recrystallized under heat and pressure into a hard, dense stone with excellent resistance to scratches and etching, exceeding granite in hardness. The name 'Cristallo' (Italian for 'crystal') evokes the bright, crystalline clarity of its quartz-rich, light-toned surface.

CARE & INSTALLATION

Clean with warm water and a stone-safe cleaner; wipe spills promptly and use trivets. Sealing needs depend on the selected stone and its use; confirm the care schedule with us. Slab movement and tone vary from swatches. Confirm the actual slab, finish and thickness before fabrication.
